The screenshot shows a Windows terminal window with a dark background. The title bar at the top reads "anup@DESKTOP-UDNPO65: ~/Shell". The terminal content is as follows:

```
#!/bin/bash
Name=Anup
Age=24
City=Solapur

echo Hello My Name is $Name and I am $Age years old and I am from $City.

host=$(hostname)
echo My hostname is $host
```

Below the terminal window, a taskbar is visible with the Windows Start button, a search bar containing "Type here to search", and several application icons including File Explorer, Microsoft Edge, and others. The system tray on the right shows the date and time as "11:07 18-04-2023" and the language set to "ENG".
