

The image displays a screenshot of the Visual Studio Code interface, showing a project named 'CDAC-Batch-2-Training'. The Explorer pane on the left lists the project's file structure, including folders for 'Anup Kore', 'Devesh', 'Saurabh Tajane', 'Shubham', and 'Varun Garade'. The 'Varun Garade' folder is currently selected. The Terminal pane on the right shows a series of Git commands and their outputs, indicating a workflow where a new branch 'varun' is created, files are added and committed, and then pushed to the remote repository. Subsequent commands show checking out the 'main' branch, checking out a specific commit 'nikhil', pulling the latest changes, and merging the 'varun' branch back into 'main'. The status bar at the bottom indicates the current file is 'Test.txt' and the branch is 'main'.
